

LED TORCH MODULE TP-300

WITHOUT COMPROMISE

PRODUCT INFORMATION

The LED Torch Module TP-300 for T4 ATEX Torches retrofits into existing TS/TR-24 and TS/TR-24+ safety torches.

This LED Torch Module replacement significantly improves the light output from 17 lumens to approximately 130 lumens with an increase in battery output from 10 to 20 hours

Replacing the existing bulb contact with the LED Torch Module is quick and easy and will preclude the need for bulb changes in the future and ensure an ultra bright light output.

TECHNICAL INFORMATION

| LED TORCH MODULE | |
|---------------------|--|
| PRODUCT REFERENCE | TP-300 |
